Introduction

ProGroup Hellas P.C.
The company Headquarters are based in Greece.

Naval Architect services are offered
for customer consultation and quality assurance.

Our company is introducing innovations
and different methodologies in the
Mega yacht painting process and is
considered as one of the most technically
advanced applicator in the Greek industry
in terms of quality results.

Working closely with major international
paint manufacturers, we have the
advantage of accessing, participating and
investing in research and
development programmes to achieve
improvements in speed, quality and efficiency.

Why Build & Refit a Mega Yacht in Greece

The history of Greek shipbuilding dates back to the old times.
Over the centuries, the craftsmanship transitioned through
various stages and today's shipbuilding is shaped by the
diverse elements adopted in quality to fulfill global standards.

Ownership by Nationality

By number of yachts, total length and total volume 2021-2022

COUNTRY	YACHTS		LENGTH		VOLUME	
	2021	2022	2021	2022	2021	2022
UNITED STATES	22.6%	23.0%	22.2%	22.5%	19.9%	19.7%
RUSSIA	8.7%	9.1%	9.9%	10.5%	14.7%	16.3%
GREECE	5.8%	6.1%	5.4%	5.7%	4.1%	4.2%

ProGroup Story

The company was originally envisioned as a way to integrate a set of different disciplines regarding painting projects on mega yachts, making it easier for every yacht owner to have a one-stop solution when refitting their yachts.

Ever since, we can proudly say that we are steadily marching towards that goal, supplying the yachting industry with a vertically integrated solution for any painting project, as well as providing all required facilitation for every mega yacht refit works.

A group of professionals, all of them closely related to painting projects onboard mega yachts, were brought together with the intention to realize this vision, leading to the creation of ProGroup Hellas.

Nevertheless, being still convinced that there is no other way than forward, we continue to persist in improving the quality of our services in order to invest in a satisfied clientele, that would gladly turn into a trusted business partner.

Our Team's
mission is to build
strong bonds of
Trust.

Our Team

Is a group of highly trained and qualified professionals, skilled in all sectors of a painting project, while our selected external partners can also cover all other aspects of a mega yacht's refit operation.

Our Objective

Is to provide our customers with high-end services, top-quality products and efficient solutions within our fields of expertise. To extend our high-quality standards and moral values both within and beyond the boundaries of Greece, creating the professional trust required in the yachting industry.

Our Customers

Are our company's greatest valued assets. Be they domestic or foreign individuals or companies, our clientele will always receive our finest quality services and products at their location of preference.
